FINANCIAL DEPARTMENT—FINANCE.

The 26th December 1878.

THE following Resolution is published for general information:—

READ—

A letter from Accountant-General, Bengal, No. 1068, dated the 3rd December 1878 submitting certain proposals for keeping a better account of the Government securities held in trust by officers of Government acting in their official capacity on account of Local and other Funds.

It has recently been brought to the notice of Government that the receipts and expenditure of a large number of Trust Funds and Local Funds (chiefly of a petty nature) do not appear in the public accounts, and that, even in the case of those Funds which do appear in the public accounts, no proper register is kept of the Government securities which belong to them. These securities are scattered all over the province and held in the names of different officers. As a consequence, the existence of a Fund is not unfrequently forgotten; sometimes the existence of the securities is overlooked and interest not drawn; and occasionally the securities are improperly dealt with.

2. The Director of Public Instruction, in a recent report on the Educational Trust Funds, brought to notice that, out of nearly eighty Funds, the accounts of only twenty-five are shown in the Accountant-General's books; the others are either administered by local officers without appearing in any public account, or appear in the Provincial accounts under the budget head of "Education" in such a way as to render proper supervision almost impossible. The Accountant-General has also cited instances of large sums of money and funds accidently brought to his notice, but of which no account was kept in his office; thus it only came to light through a casual enquiry that the balance of a relief fund, amounting to Rs. 25,000, had been invested, and that nobody was in charge of it, and no trace could be found in the Accountant-General's books of the Wahabee Fund which existed in the form of Government securities in the hands of the Commissioner of Patna.

3. The above instances are sufficient to shew the necessity of having some better information than is secured by the present procedure regarding invested funds, which are already very numerous, and which increase every year in number and importance. It has accordingly been proposed that all Government securities held by public officers in Bengal in any official capacity, and not being mere security deposits, should be endorsed to the Accountant-General and the Financial Secretary to the Government of Bengal, jointly, and placed in the custody of the Accountant-General, whose duty it would be—

(1) to keep a proper account of the securities in the manner prescribed for account offices;

(2) to publish every year in the Gazette a complete list of the securities showing the nature of the Fund to which each belongs, and the officer charged with the administration of it;

(3) to draw the interest on due dates, and remit it to each administering officer by an order payable at any treasury named by him;

(4) to report all cases in which the orders for the payment of interest are not cashed;

(5) to sell out any portion of the investment when required by competent authority to do so.

4. The Lieutenant-Governor approves these proposals, and desires that all Commissioners, District Magistrates, and other public officers who are entrusted with the administration of any Local or Trust Fund, and in whose names any Government securities are held, be directed to endorse all such securities in favour of the Financial Secretary to the Government of Bengal and the Accountant-General, Bengal, jointly, and to make them over to the Accountant-General, Bengal, who will henceforth be entrusted with their custody. The Accountant-General should at the same time be informed in each case of the name of the Fund or Trust to which each security belongs, the object of the Fund or Trust, the official designation of the officer administering it, and the treasury at which he desires the interest to be drawn. If any legal obstacle should exist to the transfer of the securities in the way proposed, a special report of the circumstances of the case must be made to Government.

5. The present orders do not affect the audit or control of the receipts and expenditure of each Fund, which are quite separate matters, and will be dealt with in separate orders to be issued hereafter. The custody of the Government securities is all that is transferred to the Accountant-General, who will periodically place the interest due on them at the disposal of the officer or officers administering the Fund.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Accountant-General, to all Commissioners of Divisions, all District Magistrates, and to the Director of Public Instruction, for information and guidance, and to the Judicial, Political, General, and Revenue Departments of this office for information.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,

Offg. Secretary to the Govt. of Bengal.

FINANCIAL DEPARTMENT—MUNICIPAL.

The 7th January 1878.

THE following Resolution is published for general information :—

READ—

A letter from the Accountant-General, Bengal, No. 1116B, dated the 16th December 1878, submitting copy of a circular letter which he has issued to all magistrates and collectors, with a view to settle the balances of local and municipal funds, and requesting Government to issue a general order to the officers in charge of municipal and local funds for the purpose of ensuring the periodical settlement and verification of such balances.

Read again—

The Government letter No. 3045, dated the 24th July last, to the Accountant-General on the same subject.

SERIOUS discrepancies having been frequently found to exist between the balances of municipal and local funds shown in the books of the Accountant-General and those claimed by the officers administering the municipal and local funds concerned, the Accountant-General was asked to report what measures he would propose for securing a final settlement of all such balances and the regular and periodical verification of them in future.

2. That officer now brings to notice that the local fund balances on 31st March 1872 were settled after a careful investigation extending over several years, and that the municipal balance was adjusted so as to be brought into agreement with the balances shown in the local treasuries on the same date. This settlement of balances was approved by Government in letter No. 1098, dated 15th April 1874. For every year since that date a statement of the receipts, disbursements and balance of each fund has been sent to the Collector of the District to which the fund belonged, but in many cases no action has been taken on these statements and they have not even been communicated to the administrators of the funds concerned.

3. In all cases where the balance communicated to the Collector was not objected to, the Accountant-General assumed that its correctness was admitted by the local officers, but this does not seem to have been the case, and it now appears that numerous discrepancies exist between the balances entered in the Accountant-General's books and those shown in the various local accounts. These discrepancies were brought to notice by the Accountant-General specifically requesting the Collectors to compare the balances shown by him for 31st March 1877 with those claimed by the local officers on the same date, and at the same time it was made evident that the district officers generally laboured under a misapprehension as to the procedure to be followed in reconciling discrepant balances.

4. To remove the misunderstandings which have hitherto prevailed, to ensure that the balances shown by different officers shall be brought into agreement, and to provide for the periodical agreement and verification of such balances in future, the Lieutenant-Governor now directs that the following rules shall be strictly observed :—

I.—As regards all local funds of which the balances were settled by the Accountant-General for 31st March 1872, the balances so settled must be accepted once for all as correct by the officers or persons administering the funds, and their accounts adjusted accordingly. No claim on the part of any fund to open up the accounts of any period prior to that date will be admitted except with the sanction of Government which will only be given on special grounds.

II.—For any period subsequent to 31st March 1872, the statement of the Accountant-General showing the yearly balance of the fund and the receipts and disbursements month by month shall, *primâ facie*, be held to be correct. Any collector or other officer charged with the administration of a fund, who may desire to

dispute the correctness of the balance shown by the Accountant-General, can only make good his claim by showing either that receipts paid into the treasury on account of the fund have not been credited to it, or that charges have been taken against the fund which should not have been debited to it. The items of receipt which are claimed must be traced in the treasury accounts, and not merely pointed out in the accounts kept by the local fund. The receipts given by the local treasury afford an easy and conclusive means of establishing such claims.

III.—For all municipalities, the balances as adjusted on 31st March 1872 by a credit to Provincial Reserve shall *primâ facie* be held to be correct, but corrections will not be limited, as in the case of local funds, to transactions that occurred subsequent to that date. Any municipality which can show that money paid into the treasury before 31st March 1872 was not placed to its credit, or that any item was charged to it in the yearly accounts which should not have been so charged, will have its account adjusted accordingly. In such cases the Accountant-General may exercise his discretion as to whether the matter should be reported for the orders of Government or not.

IV.—All disagreements as to municipal balances arising from transactions that occurred after 31st March 1872, will be adjusted by the method prescribed in Rule II for local funds.

V.—The Accountant-General will arrange, with as little delay as possible, to keep a separate account for each municipality, union and station. When the district municipal balance has been settled, the district officers must take immediate steps to distribute it among the various municipalities, unions and stations of that district, and the Accountant-General will, as a rule, accept such distribution without further investigation.

VI.—The Accountant-General should send, once a quarter, to the officer charged with the administration of each municipality or local fund, a statement showing receipts and disbursements on account of the fund as well as its balance at the close of the quarter, and such officer must state in reply whether he does or does not accept the balance, and must lose no time in making good, in the manner already pointed out, any claim he may wish to put forward on behalf of the fund. The sending of this statement by the Accountant-General need not be deferred until a reconcilement of the balances at present shown in the various accounts has been effected, as it is of importance to ensure that current receipts and expenditure are correctly shown in the accounts.

VII.—The Accountant-General is responsible for taking steps to ensure that the treasury *plus* and *minus* memorandum for each municipality or local fund agrees with the figures shown in his accounts, and treasury officers may, when required, certify the amount of receipts and disbursements which in their accounts they have credited or debited to any municipality or local fund, but such certificates are open to correction by the Accountant-General in whose office the accounts of balances are kept.

5. Any doubt as to the real balance at credit of a municipality or fund is calculated to affect injuriously its efficient working, and the disagreement of the balances shown for the same fund in the accounts kept in different offices opens a wide door to fraud and is a fruitful source of complication and correspondence which might easily be avoided. The rules now passed are intended to facilitate the reconcilement of existing, and the periodical verification of all future, balances and the Lieutenant-Governor will not fail to take serious notice of the conduct of any officer who may hereafter be shown to have neglected this important part of his duty or to have disobeyed the orders of Government in this matter.

ORDER.—Ordered that copies of this resolution be forwarded to all District Magistrates and to the Chairmen of all 1st and 2nd Class Municipalities for information and guidance, and also to Commissioners of Divisions for information.

Ordered also that a copy of it be forwarded to the Accountant-General in reply to his letter No. 1116B, dated the 16th December 1878.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,
Offg. Secretary to the Govt. of Bengal.

The 16th January 1879.—The following Regulations for the Examination of Candidates for the Civil Service of India, to be held in June and July 1879, are published for general information :—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE AND JULY 1879.

N.B.—The Regulations are liable to be altered in future years.

1. On 17th June 1879 and following days an examination of candidates will be held in London. At this examination not fewer than candidates will be selected, if so many shall be found duly qualified. Of these, will be selected for Presidency of Bengal [for the Upper Provinces and for the Lower Provinces], for that of Madras, and for that of Bombay.* Notice will hereafter be given of the days and place of examination.

2. Any person desirous of competing at this examination must produce to the Civil Service Commissioners, before the 1st of April 1879, evidence showing—

(*a*) that he is a natural-born subject of Her Majesty.

(*b*) that his age will be above seventeen years on the 1st of June 1879 and under nineteen years on the 27th January 1879.† [*N.B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the candidate may have resided.*]

(*c*) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India.‡

(*d*) that he is of good moral character.‡

He must also pay such fee as the Secretary of State for India may prescribe.§

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the candidate will, upon payment of the prescribed fee, be admitted to the examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary ; and if the result of such inquiries in the case of any candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India ; and if already selected, will be removed from the position of a probationer.

4. The examination will take place only in the following branches of knowledge :—

		Marks.

Candidates are at liberty to name, before 1st April 1879, any or all of these branches of knowledge. No subjects are obligatory.

5. The merit of the persons examined will be estimated by marks ; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary, in order to secure that "a candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

* The number of appointments to be made, and the number in each Presidency, &c., will be announced hereafter.

† At the Open Competition to be held in 1880, Candidates will be required to be above 17 on the 1st June, and under 19 on the 1st January, of that year. At subsequent competitions, they will be required to be above 17 and under 19 on 1st June of the year in which the competition is held.

§ The fee for this examination will be £5, payable by means of a special stamp according to instructions which will be communicated to candidates.

‖ Marks assigned in English Composition and Mathematics will be subject to no deduction.

¶ A considerable portion of the marks for English History and Literature will be allotted to the work specially prepared. In awarding marks for this, regard will be had partly to the extent and importance of the periods or books selected, and partly to the thoroughness with which they have been studied.

** The examination will range from Arithmetic, Algebra, and Elementary Geometry up to the elements of the differential and integral calculus, including the lower portions of applied Mathematics.

†† The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency such as may be expected to be reached by a Native of good education.

7. The examination will be conducted by means of printed questions and written answers and by *vivâ voce* examination, as may be deemed necessary.

8. The marks obtained by each candidate in respect of each of the subjects in which he shall have been examined will be added up, and the names of the candidates who shall have obtained a greater aggregate number of marks than any of the remaining candidates will be set forth in order of merit, and such candidates shall be deemed to be selected candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate. A selected candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected candidates, before proceeding to India, will be on probation for two years, during which time they will be examined periodically, with a view of testing their progress in the following subjects :—*

	Marks.
1. Law	1,250
2. Classical languages of India—	
Sanskrit	500
Arabic	400
Persian	400
3. Vernacular languages of India (each)	400
4. The History and Geography of India	350
5. Political Economy	350

In these examinations, as in the open competition, the merit of the candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one examination. The examination will be conducted by means of printed questions and written answers and by *vivâ voce* examination, as may be deemed necessary. The last of these examinations will be held at the close of the second year of probation, and will be called the "Final Examination," at which it will be decided whether a selected candidate is qualified for the Civil Service of India. At this examination candidates will be permitted to take up any one of the following branches of Natural Science, viz.—Botany, Geology, and Zoology, for which 350 marks will be allowed.

10. Any candidate who, at any of the periodical examinations, shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

11. The selected candidates who at the final examination shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of age, health, and character, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that service.

12. Applications from persons desirous to be admitted as candidates are to be addressed to the "Secretary to the Civil Service Commissioners, London, S.W.," from whom the proper form for the purpose may be obtained.

October 1878.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements :—

(5)—*All selected candidates will be required, after having passed the second periodical examination, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. A surety will be required.*

(6)—*After passing the final examination, each candidate will be required to attend again at the India Office, with the view of entering into covenants. The stamps payable on these documents amount to* £1.

(7)—*Candidates rejected at the final examination of* 1881 *will in no case be allowed to present themselves for re-examination.*

* Full instructions as to the course of study to be pursued will be issued to the successful candidates as soon as possible after the result of the open competition is declared.
